

# Eric Howard

front end web developer + designer

erichoward86@gmail.com // 610.306.3978 // 2103 V Street // Sacramento, CA 95818

## WORK EXPERIENCE

**Technical CRM Consultant**, SAP – Philadelphia, PA, *January 2013 to Current*

- + Client-facing international technical consultant for on-site CRM implementations
- + Converts customer requirements into development specifications, then implements and validates within enterprise software systems through dev, QA, and production environments
- + Performs unit, functional, and integration testing to ensure the highest quality deliverables
- + Develops ABAP enhancements for the CRM user interface and integrates with SAP Business Intelligence and ERP systems

**Business Analyst Intern**, Intel Corporation – Folsom, CA, *June 2012 to September 2012*

- + Performed business analysis for the support department to determine the impact of the Windows 8 transition and make recommendations for external support website content and updates
- + Documented existing support software, including business logic diagrams, requirements, user stories, user interface functionality, and reporting to support future software implementations
- + Created requirements for a web service API development project for integration with an existing internal system

**Web Designer, Developer, Owner**, Howard Web Service – Placerville, CA, *January 2009 to June 2012*

- + Developed web sites for businesses, non-profits, and artists at every stage of the software development life cycle, including consultation services, content writing, user experience, interface design, implementation and support
- + Designed fully-custom websites with the LAMP stack and customized WordPress, Drupal, and Joomla with HTML, CSS, and jQuery to according to customer requirements
- + Managed accounting, subcontracting, marketing, technical, sales, and support business operations
